

Registration, Evaluation, Authorization, and restriction of Chemicals (REACH) Statement of Compliance

August 5, 2021

Valued Customers:

The following statement references (EC) No 1907/2006 of the European Parliament and of the Council, December 18, 2006; REACH SVHC Declarations as of July 8, 2021; and Annex XVII of the REACH regulation, Restriction of Substances, updated June 4, 2021.

K-Tube Technologies is a manufacturer and distributor of laser welded tubing, and does not melt or produce any of the raw materials used in the manufacture of its products. In addition, K-Tube Technologies does not knowingly add or expose its raw materials to any of the substances currently listed on the EU Candidate List of Substances of Very High Concern (SVHC).

Furthermore, our vendors have reported that the products sold to us do not contain any significant amounts of chemical compounds on the SVHC.

Under the structure of the REACH regulation, all of K-Tube's products are considered articles governed by the Restrictions of Annex XVII. We declare that none of the substances in the Conditions of Restriction are present, and K-Tube's products are considered compliant with the European Union's SVHC and Annex XVII regulations.

If you have any questions, please feel free to contact me.

Respectfully Submitted,

Rocky Giddens
